SIR:

Amendment under 37 CFR 1.116

Permission is respectfully requested to amend the present application as indicated below under "Amendments to the Claims":

The amendment is considered to be necessitated by the Examiners use of US 3 679 556 for the rejection of claim 1, which reference was not considered to be pertinent earlier, neither by the Applicant nor by the Examiner, as it discloses flow passages formed between opposite spaced parallel electrodes.
